## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Restriction/ Election**

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-16 are drawn to fluorochemical urethane composition containing oligomers , classified in class 428, subclasses 375, 393, and 395 .
- II. Claims 17-19 are drawn to a coating composition, classified in class 106, subclass 38.22.
- III. Claims 20-23 and 28-29 are drawn to an article and a shaped article and its process, classified in class 264, subclass 165+.
- IV. Claim 24 is drawn to a method of imparting repellency to a substrate, classified in class 528, subclass 49.
- V. Claims 25-27 are drawn to a polymer composition, classified in class 424, subclass 78.01+.

Inventions Group I and Group II are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01).

In the instant case. the invention of Group I is directed to the fluorochemical urethane composition containing oligomers, whereas the invention of group II is directed to the coating composition. They are different and unrelated to each other; for example, the coating composition of Group II has no requirement of adding the fluorochemical

Art Unit: 1625

urethane composition to the coating composition , such as the case of coating compositions in shown in Epple et al (US 6,211,306).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Taylor Victor Oh whose telephone number is 703-305-0809. The examiner can normally be reached on 8:30-5:00.
